

## Deposit Awareness – Secure Placement

Dear Intl. Student Applicant,

Your university placement is subject to the individual requirements of each college and program. Your first-year program placement is based on your academic qualifications and English proficiency test scores.

The costs for program tuition & fees, housing, meal plan, health insurance, and any scholarship awarded to you will be listed on the final Statement of Fees that you will receive upon confirming your enrollment and completing your application process at the university of your choice.

As a new requirement for the university placement process, most of our US university partners are now charging a deposit for admission procedures because many intl. students receive their F-1 intl. student visa to a particular university and never show up at the university to study.

The universities require a deposit (average of US\$ 2,000.00) to secure your placement & show of good faith, to guarantee your spot at the university, and for you to receive your semester course schedule.

**The mandatory university deposit must be wired directly to the university's bank account (for further details see the university payment policy and instruction letter). The required deposit must be paid within 7 days after the intl. student receives the Conditional Offer Letter in order to confirm your enrollment and begin the process of your visa application. Then, the I-20 Form will be issued and emailed directly to your email address.**

The deposit is 100% refundable if the intl. student does not get the F-1 Intl. Student Visa (subject to change according to university's policies). For the refund, the university will require the letter of denial from the US Embassy/Consulate and a completed university form. The refund process takes approximately two weeks.

I read and agree with the statements on this form regarding the payment of the deposit required by the university and the timeframe of such, and I will follow the deposit payment procedure explained above.
